

How to get Anonymous Survey Written Results in Canvas

Click on the Survey assignment then click on **Survey Statistics** in the top left of the screen:

Published Preview Edit

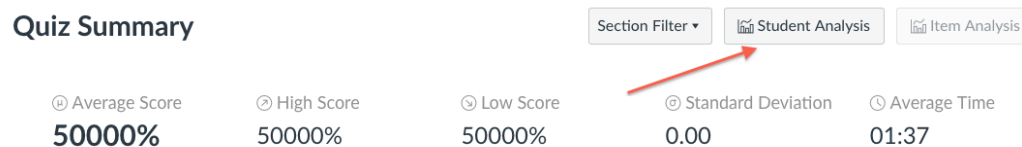

First Survey/Extra Credit!

This is a short anonymous survey about your experience with the course so far. Please complete the survey and get five (5) extra credit points for doing so! :)

Related Items

- SpeedGrader™

Then you will get the screen that shows how students answered the multiple choice questions on your survey but this is how you get to their written comments – click on **Student Analysis**:

Quiz Summary

Section Filter Student Analysis Item Analysis

Average Score	High Score	Low Score	Standard Deviation	Average Time
50000%	50000%	50000%	0.00	01:37

What this does is generate an Excel file that will have all of the responses, including the written ones. You will have to expand the columns in the Excel file where the written comments are so you can read them. This is a file you can keep for your records.

That's it!
