

How to Request a LibGuide

LibGuides are web tutorials specific to library research. Instructors can request a LibGuide by contacting Dr. Jun Wang or Mary Wepler (jwang@deltacollege.edu / mwepler@deltacollege.edu)

What is a LibGuide?

- The San Joaquin Delta College Library uses [LibGuides](#) to organize and showcase library resources and services available to SJDC faculty and students to enhance research and study.
- [LibGuides](#) comprise a content management and information sharing system designed specifically for libraries. The platform allows for intuitive navigation and instruction on core and relevant resources in a particular subject, course, and/or assignment.
- Furthermore, this platform effectively invites collaboration between librarians and instructors to meet the research needs of their students.

Why Use a LibGuide?

The [LibGuide](#) platform allows us to:

- Organize core and relevant resources in your field into one 24 hour accessible webpage, simply give your students the url or ask an SJDC librarian about embedding in your Canvas site.
- Combine features of social networks, wikis, and blogs on a particular subject
- Make RSS and podcast feeds, social bookmarking, and user comment technologies easy to use.
- Anything we create is printable, so it can easily be used as handouts.
- We can update the information on the page BEFORE, DURING AND AFTER you teach a research or library-related lecture, so students can have access to updated material.
- We can integrate chat technology into your guides for constant communication with your students.

Request a LibGuide

To request a LibGuide, contact:

Dr. Jun Wang: jwang@deltacollege.edu

or

Mary Wepler: mwepler@deltacollege.edu
